

Greetings!

We first want to say that we appreciate every person on our team that helps make J.C. Movement move. The J.C. Movement Leadership Team and Board of Directors have been working tirelessly to help make sure our employees and team are always in a secure place with employment. We are primarily looking at other avenues of income following the Tornado and COVID-19 pandemic. We are now solidifying a plan to help employees find work and job security for the future with J.C. Movement, INC.

J.C. Movement INC. is a crowd-funded Non-Profit. Which means we collect funds off of programming, events, and donations. When funding is affected due to breaks of programs, programs ending, or situations out of our control, we cant release funds throughout the organization. All employees are Part-Time 1099 employees because we are a small starting business that is on the rise to growing. JCM will only provide paid time for the hours a shift is scheduled and worked. All salaries or wages are designed by the financial leader and team that best support JCM budgets. To hopefully help to make it easier to be apart of JCM, we are creating other ways for individuals to make extra income as well as partnering with other outside sources that have available flexible employment hours. Again we appreciate you all and hope this information is helpful.

Best,

-J.C. Movement Board of Directors & Leadership Team
