Hi,

My name is Joseph Jenkins. I am an African American Elementary School Teacher and the founder and director for J.C. Movement, INC. Being in education, I have seen students come to my class, hungry, alone, lost, and just needing someone to give them a smile and some love. I have also seen young parents unsure of what they are doing but trying to do their best for their child while maintaining a positive mindset. I have a passion for the youth and their education. It's our responsibility to teach, help, and give love to every person that passes our way to promote a better future for their lives.

J.C. Movement, INC. is a 501c3 Non-Profit organized for religious, charitable, education & scientific purposes in Nashville, Tn. This organization was founded to help meet the needs and be the light in our community and the world. We are motivating each individual to strive for purpose. My job as the director is to make sure the mission & vision are going forth and driven each day through inspiration/motivation, education, films, music, art programming, and more.

Since our start in 2017, we have developed Before & After School Programs, Summer Programs, Day Home Development Programs to help parents and students with educational needs, and make sure every family and child will be fed daily. We've been able to deliver more than 9,000 meals to individuals because of our programs and great partnerships. Our programming is vital to our kids and families. We have a responsibility to our community to keep them safe and give opportunities to grow their brains to a higher frequency of success.

During this pandemic, we have been blessed with an organization house to host a Day Home Development Program that allows students to do their virtual learning while parents can work. Students are provided breakfast, lunch, and snacks throughout the day in a safe, clean environment to learn and be productive.

We may not be like some of the known Non-Profits, but we are J.C. Movement, INC, and our students and community deserve the same and best support, which is why I am reaching out. My experience with being a reasonably new organization is sometimes your grant application or letters aren't as necessary. This could be for a variety of reasons, some due to donors wanting to see your sustainability. We have been growing and sustaining since 2017, but it's not an easy task. We provide excellent services that require funding, sacrifices, materials, volunteers, and so much more. I truly understand that it takes a village and partnership to raise a child. I would greatly appreciate your partnership towards the efforts of J.C. Movement, INC, as we continue to build, develop, and make our programs better by feeding, providing, and growing even if it's connecting us to the resources to do it ourselves.

I appreciate your time and consideration and wish nothing but the best for you in the future. As I tell every student and person I cross. Our purpose is so much “Bigger Than Us,” and it starts with you! Feel free to check out our website for more information. I am also available to talk if need be. Thanks again!

Best,
Joseph C. Jenkins
