---

Greetings,

As we are beginning the new year, there are a couple of changes that we will be making in our Before Programs.

J.C. Movement, Inc is in the process of developing more vital programs to offer to parents and students. We are looking to receive our license in Before & After School Programs and our license in Day Care Programming.

Until we receive our license, each Before School Program will be run by the School and desired volunteers.

Luckily for our relationship with our students and families, J.C. Movement will be volunteering their time in the mornings at our schools to help out the Schools and Parents.

If you have any questions, please feel free to reach out to the schools and staff.

We look forward to starting the next school year with more vital support and services to help schools and families.
